Free On-Site Flu Shot Program

We are excited to announce this year's flu vaccination program. Each year in the U.S. more than 300,000 people are hospitalized and about 20,000 die of seasonal flu and flu complications.

Flu vaccines continue to play a crucial role in ensuring optimal health. The Centers for Disease Control (CDC) recommends that everyone 6 months of age and older get a flu shot as the single best way to prevent the flu.

It's becoming increasingly more apparent that when compared to doctors' offices, urgent care, and pharmacies — **corporate offices may be the safest place to receive these critical vaccinations.**
