NEW INFORMATION
IMPORTANT PRESCRIBING INFORMATION

**Subject: Moderna COVID-19 Vaccine, Bivalent –
For Use in Individuals 6 Years of Age and Older
The Volume of a Single Booster Dose is Age Dependent**

Dear Healthcare Provider:

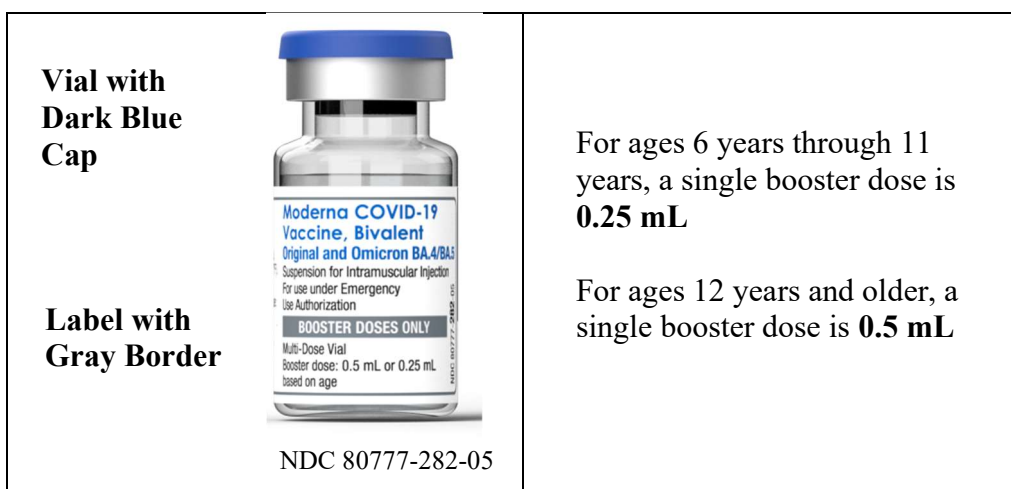

As of October 12, 2022, Moderna COVID-19 Vaccine, Bivalent is authorized for use as a single booster dose in individuals 6 years of age and older administered at least 2 months after either:

- completion of primary vaccination with any authorized or approved monovalent¹ COVID-19 vaccine, or
- receipt of the most recent booster dose with any authorized or approved monovalent COVID-19 vaccine.

This letter is to alert you that Moderna COVID-19 Vaccine, Bivalent for individuals 6 years of age and older is supplied in a multiple-dose vial with a dark blue cap and a label with a gray border. The volume of the booster dose is age dependent:

- A single booster dose for ages 6 years through 11 years is **0.25 mL**
- A single booster dose for ages 12 years and older is **0.5 mL**

The vial and label for Moderna COVID-19 Vaccine, Bivalent are shown in the figure below.

¹ Monovalent refers to any authorized or approved COVID-19 vaccine that contains or encodes the spike protein of only the Original SARS-CoV-2.

To access the most recent Moderna COVID-19 Vaccine Fact Sheets, please scan the QR code or visit the website provided below. A copy of the Fact Sheet for the Moderna COVID-19 Vaccine, Bivalent authorized for use in individuals 6 years of age and older is also attached to this letter.
